

DAILY DEMOCRAT.

SATURDAY, — AUGUST 25, 1855.

For Amusements, Auction Sales, and Steamboats, see appropriate Heads.

See advertisement of talented business men wanted as agents.

Should any carrier fail to deliver the Democrat promptly, word left at the office will remedy the neglect.

Advertisers will please hand in their favors as early as they conveniently can, during the day.

Subscribers changing their residences will please leave word at the office, so that our carriers may find them promptly.

Thanks to Mr. E. K. Hill of Elliott's omnibus line, for Cleveland papers in advance of the mail.

— Yesterday was about the dullest day we have seen in Louisville for many a day—very little business done, and money as tight as a vice.

The Railroad Circus now exhibiting in this city, is not the great circus and menagerie of Raymon & Co., which will exhibit on the 3d and 4th of September.

Madame Mauboung, the widow daughter, and last surviving child of the Marquis Lafayette, is dead. She died a few days ago, aged 75, at her splendid residence in Turin.

If there is one preparation better than all others for bowel diseases, that one is McGehee's Liquidamer. Our word for it, those who try it will never regret it. All the druggists keep it.

The New York Commercial Advertiser says that thirty-three years have elapsed since New York was visited by yellow fever. Baltimore has been spared from its ravages about the same length of time.

STEAM FIRE ENGINE.—Another trial was had yesterday afternoon at the corner of Clay and Market streets of the steam fire engine. It worked admirably, throwing a stream 1½ inch in diameter to the distance of 210 feet.

ELIZA LOGAN NARRATIVE.—Miss Eliza Logan writes to the Detroit Advertiser, under date of Niagara Falls, August 16, denying that she is married, and wondering how such a rumor got out.

STICKY SEASON.—It would seem from a report published in the Utica (N. Y.) Teetotaller that July was a very sticky month in Utica. The number of liquor sales, which were mostly for medicinal purposes, was 2200; value of the medicines, \$1,334.

SMALL-FOX IN CYNTHIANA.—The following deaths have occurred from this terrible disease in Cynthiana, viz.: T. J. Boyd, who fought in the battle of Buena Vista; Levi Boyd, who was in the same fight; two children of George A. Boyd, and a Miss Stevens, who was living at Mr. Levi Boyd's.

CHILLS AND FEVER.—Of all the preparations for this very prevalent disease, there is probably no one more certain in its effects than Dr. Speed's Electrical Fibrofuge—two doses being all that is necessary, in most cases, to effect a permanent cure. We advise our shaking friends to call on Raymond & Patten and get a bottle.

WHITEMAN'S PAPER MILL BURNED.—The extensive paper mill of W. S. Whiteman, located on the Clarksville turnpike, about seven miles from the city, was destroyed by fire yesterday. The building was of wood, about 120x120 feet, and when the messenger left for the city to notify the proprietor, the roof of the main building had fallen in. No particulars are known at this time of the origin of the fire. The building and machinery, with the stock in the mill, were worth about \$4000. The men who were insured in the Tennessee Marine and Fire Assurance office of this city for \$4000, and in the Mutual State of Pennsylvania, Harrisburg, for \$6000.

The destruction of this establishment will prove a great calamity to the newspaper publishers in middle Tennessee and elsewhere. Many of them were almost entirely dependent upon Mr. Whiteman's paper. We believe there is enough paper ahead to supply the city custom for about two months.

Mr. Whiteman had just completed extensive improvements, and had a new machine in operation when cost about \$12,000.

The loss will be about \$12,000, and we have to pay the expenses of getting the paper elsewhere.

There have also, during the past week, been three or four deaths from cholera in Hinsburg, both we hear, no new cases for several days. The deaths are attributed to imprudence, and the disease is not thought, we believe, to be epidemic there.

The health of Lexington and Nicholasville, we understand, is completely restored, and the absent citizens have returned to their homes. —*Doucile Tribune*, 24th.

WE understand that a couple of our "professional" sharpers, or *sharks*, drew an unchristian young Kentuckian into their meshes Monday night, and fleeced him out of all the money he had, some \$75. We presume the young man went very much wiser when he came to our city.

It is to be hoped that the lesson will be more valuable than the punishment, and that the young man will be more careful in the future.

Captain F. fell a victim to the dreaded scourge of the smallpox, he had many friends and acquaintances in this city and on the river, who will receive with sorrow the announcement of his death.

—*From the Evening Edition.*

PIRATRE, August 21.—M.

There are 4½ feet water in the channel and at a stand.

The weather is clear and pleasant.

—*Locomotive—Cotton Boat.*—The new steamer Locomotive lies now at the foot of Fourth street, for which she will leave Saturday afternoon, at 5 o'clock.

She is the fifth boat that Capt. Greenlaw has built here in five years. Her trial will be from New Orleans to the mouth of the Mississippi.

—*Mississippi.*—A few weeks ago, a well known New Orleans pilot, died in that city a few days since. He has been engaged as pilot on the Henry Clay, a new steamboat, built in that city, and will be engaged as pilot on the new steamer Mississippi.

—*The River.*—At this point the river is about a stand.

The weather was very cold yesterday, and very little was done at the wharves. The Indians, however, have come here since the commencement of the epidemic.

Deaths in Portsmouth for the last 24 hours are 22, and there are 400 cases under treatment.

The disease is still increasing. There were 27 deaths here yesterday.
